LOST SIGHT OF HIS EYE BOUGHT LANGSTON HOME

Mr. Foy Milton Loses Place as Railroad Engineer Because of Accident While on Duty.

Mr. Foy Milton, railroad engineer, who went from this city to Wichita Falls, to accept a place on a road out of that city, and who received an injury to his left eye while on duty that has destroyed permanently the sight, is here on business, and is preparing to bring his family back to Palestine. He says he will most likely engage in some business here, as the loss of the eye passes him up for railroad work.

Mr. Milton's friends will regret to hear of his loss, but will be glad to welcome him and his estimable family back to Palestine.

JUDGE BOX TALKS.

Jacksonville Man Will Not Be a Candidate For State Senator.

Jacksonville, Texas, Aug. 23.—An effort has been made to induce Judge John C. Box of this place to become a candidate for the state senate in place of Hon. C. C. Stokes, recently deceased. From the first Judge Box has declined to consider the suggestion. Today he gave out the following statement:

"Without suggestion or encouragement from me, it has been generally rumored that I will be a candidate for state senator to fill the place made vacant by the death of Hon. C. C. Stokes. To make this race or to accept the office would require a sacrifice which there is no reason for me to make. For the information of all concerned I beg to state that I will not be a candidate."

TAKEN FOR LUNATIC.

San Antonio Surveyor, While at Work, Aroused Suspicion.

(Herald Special.)

San Antonio, Texas, Aug. 24.—J. H. Long, deputy sheriff of Bexar county and expert in the handling of lunatics, has discovered that there are a number of things he does not know, among them the ways of surveyors. To a

plaintive message received at sheriff's headquarters from a woman living on the outskirts of the city, Deputy Sheriff Long responded with much alacrity. The woman had sent word that a supposed lunatic was acting queerly, going from one place to another in a very aimless manner and fastening bits of paper to trees, fences and little stakes he had with him.

When Deputy Sheriff Long told the alleged lunatic he was wanted by his mother downtown a rather odd smile fled over the countenance of the latter. The man of the law then decided to play a more direct game and told him that he was wanted by the law. Why he should be was not clear to the man and after a resulting argument in which Deputy Sheriff Long got the worst of it, both were of the same turn of mind. The surveyor explained to the officer that the bits of paper were intended to show the way to a grading crew, and the woman who accused him of lunacy—for such is the technical charge—has a damage suit ahead of her.
